

Hello & congratulations!

You've made the right choice - we hope you love using your new LOGIX computer as much as our engineers loved building it. The great news is your PC has been hand-built, tested and any updates have been installed.

You just need to connect it to your monitor, keyboard and mouse, turn it on and you can get going. Please follow the instructions below.

You also have a 3-year warranty with your LOGIX PC. This means that, if something stops working or your computer develops a fault in this time, you're covered - **make sure your PC is registered on our website** - click Warranties in the main menu.

Our Customer Services Team are available via email - simply use the Contact Us form on the website and our Customer Services team will usually respond within 24 hours.

If you have any comments, queries, or feedback, please do get in touch with us.

Quick Start Guide

Step 1: Connect Your Cables !

Connect your monitor: connect the cable from your monitor to the HDMI or DisplayPort port. **1**

Connect to the Internet: if you are using a wired Internet connection, connect the Ethernet cable (Internet cable) from your router to the Ethernet port on your PC. **2** (If you are using a wireless connection, you'll set this up when you start your computer).

Connect your peripherals: plug your mouse, keyboard, speakers and any other USB devices into the USB ports (there are 2 x USB ports on the front and 2x USB ports on the back- you can use any of them) **3**

Step 2: Power Up !

Connect the power supply provided into the power supply on the back of the PC. **4**

Turn your monitor on.

Step 3: Start Your PC !

Turn it on: press the power button, **5** located on the front of the PC. A Windows logo will appear - follow the instructions to register your PC. Once setup is completed, you're ready to go!

Troubleshooting

If you are having trouble at any stage of the setup instructions below, DO NOT PANIC. Sometimes it's just best to start again - unplug everything and start at Step 1 again. Make sure everything is plugged in correctly - no cables should be loose or hanging. Only turn the power on when you're happy everything is connected correctly. If you are still having problems, please contact the retailer you bought it from or our Customer Services at support@logix-systems.co.uk.
