# PCs for Education

Whether you require a space-saving micro-PC, a standard tower or something inbetween, there's a LOGIX PC for every situation - from robust classroom machines, to high-performance higher education powerhouses.

**LOGIX micro tower desktop PCs** are powered by the latest Intel and AMD processors, with reliable memory and the latest NVMe SSDs which can be upgraded to higher capacities for heavier use.

They are designed for maximum power, cooling and efficiency and include 80 Plus certified power supplies as well as a 3-year warranty.

**LOGIX small form-factor PCs** boast all the power of a full desktop in a smaller, more discreet chassis. Ideally suited for classrooms where space is a premium, they feature all the connections you need and are easily upgraded.

They're also an ideal office solution where institutions need cost-effective, reliable hardware and the reassurance of a long warranty.

**LOGIX micro PCs** are the ideal space-saving solution - they are simply fixed to the back of a monitor, with all cables hidden and away from potential tampering.

Available with a range of next-gen technologies, they are also feature-rich, with a wealth of next-gen wired and wireless connections like WiFi 6, providing reliable use for years.

## AI Integration

Use Microsoft Copilot engage students, improve learning and aid staff.

## 3-Year Warranty

Every LOGIX PC comes with a 3-year warranty and on-site swapsouts.

## Hand-Built in the UK

Built and thoroughly tested by our team of engineers at our facility in Yorkshire.

## UK-Based Customer Support

No call-centres or chatbots, just real people helping you get the most from your PC.

## Windows 11

All LOGIX PCs are built and tested with Windows 11 installed, complete with the latest security updates and drivers, meaning they are ready to integrate into your existing systems. However, we can work with your IT department and provide PCs OS-free if you would prefer.

## ITAD & E-waste Recycling

As part of the LOGIX warranty, we offer institutions on-site replacements and device recycling. In the unlikely event of a failed PC, we will arrange a replacement machine, delivered to site. We can also arrange the collection and recycling of unwanted devices to support your ITAD efforts.
