

PCs for Offices

• Hand-built in the UK • 3 Year Warranty • UK Support

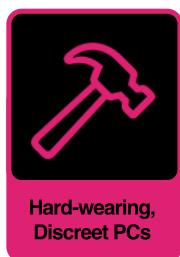

The build-quality and performance of a custom PC, in an office PC. With a reassuringly-long 3-year warranty as standard.

If you're going to be sat using your work PC for 8 hours a day, you want it to be comfortable to use, reliable, discreet and capable of doing everything. Preferably all at the same time.

LOGIX PCs for Offices are designed to do just that - with powerful processors, all-branded components, plenty of storage, fast memory and Windows 11 with Microsoft Copilot AI assistant installed, we offer a range of different form factors and specifications so you get the PC you need to work efficiently.

Our build quality, use of branded parts and rigorous testing procedures ensure that every LOGIX PC we ship performs to its potential, backed by a best-in-class warranty period and in-house UK customer services, all at prices well below other brands in the market.

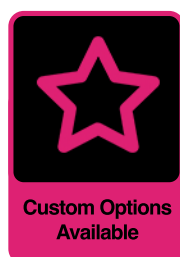

If you're looking for high-quality, great-value office and business PCs to suit all budgets, with a long warranty and UK support, LOGIX is the smart choice.

We understand the time and budgetary constraints businesses are under. Thankfully, our excellent partner relationships and experience building computers for a wide range of industries and uses means we can offer reliability beyond other brands, better performance than other brands, and a customer support level the envy of other brands.

We've built PCs for offices, schools, universities, blue-chip corporations, railways, farms, car manufacturers, gamers, engineers, families, factories, e-sports teams and countless other projects over the last 25+ years. Because we have that experience as well as the support of some of the best-known manufacturers in the World, we can help you find the best solution, whether it's a single PC or enough to fill a large office.

✓ All-branded components ✓ Scalable office setups ✓ On-site repairs & replacements

PCs for Offices

Whether you require space-saving micro-PCs, standard towers or something inbetween, there's a LOGIX PC for every situation - from robust office machines, to high-performance design and editing powerhouses.

LOGIX micro tower desktop PCs are powered by the latest Intel Core i3, i5, i7 & i9 processors, with reliable DDR4 memory and the latest NVMe SSDs which can be upgraded to higher capacities for heavier use.

They are designed for maximum power, cooling and efficiency and include 80 Plus certified power supplies as well as a 3-year warranty.

LOGIX small form-factor PCs boast all the power of a full desktop in a smaller, more discreet chassis. Ideally suited for offices and work areas where space is a premium, they come with all the latest features and are easily upgraded.

They're perfect for any business that requires cost-effective, efficient and reliable hardware complete with the reassurance of a long warranty.

LOGIX micro PCs are the ideal space-saving solution - they are simply fixed to the back of a monitor, with all cables hidden and away from potential tampering.

Available with the latest range of Intel and AMD processors, they are also feature-rich, with a wealth of next-gen wired and wireless connections like WiFi 6, providing reliable use for years.

AI Integration

Use Microsoft Copilot to improve workflows, research and write reports effectively.

3-Year Warranty

Every LOGIX PC comes with a 3-year warranty and on-site swapouts.

Hand-Built in the UK

Built and thoroughly tested by our team of engineers at our facility in Yorkshire.

UK-Based Customer Support

No call-centres or chatbots, just real people helping you get the most from your PC.

Windows 11

All LOGIX PCs are built and tested with Windows 11 installed, complete with the latest security updates and drivers, meaning they are ready to integrate into your existing systems. However, we can work with your IT department and provide PCs OS-free if you would prefer.

ITAD & E-waste Recycling

As part of the LOGIX warranty, we offer institutions on-site replacements and device recycling. In the unlikely event of a failed PC, we will arrange a replacement machine, delivered to site. We can also arrange the collection and recycling of unwanted devices to support your ITAD efforts.
